MILAN NEW YORK

FLOR N.9
CEILING LIGHT

LTZFL9

The Flor chandelier is inspired by the interweaving of patterns found in everyday life. The droplet shaped shade diffusers, made from hand blown Murano glass, effortlessly come together to create fluid motions. Their voluminous glass profile coming down from the supporting brass frame, feel like sails softly filled with air. The glass texture is achieved by a sanded interior and smooth exterior, elegantly diffusing the light. Model N.9, emulating a spiraling continuation of dewdrops, can be installed hanging (as shown) or as a flush mount.
